Remembers well

**□** Forgetful

## Math and Memory Program REGISTRATION FORM FREE 10 WEEK PILOT Fieldstone Day School

Dear Parents/Guardians of Grade Four, Five, and Six Students,

The Math & Memory Organization includes some of Canada's top mnemonists. We provide an extra curricular mental math and memory program to children in elementary schools, increasing children's love and confidence in math while building a stronger memory.

We are very confident in the success and quality of our program and are offering the exceptional students at Fieldstone Day School a **complimentary** 10-week pilot program!

## **Get your child prepped for academic success in the New Year!**
