Monday	Tuesday	Wednesday	Thursday	Friday
<p>Game Boards and Cards Club The purpose of the board game club is for students to make new friends and play fun games that challenge their minds. The club values teamwork, friendly competition, and a willingness to try new things. The goal is to unite those who are passionate about board games, to provide new, different, and interesting games to play, and to create an enjoyable gaming environment.</p>	<p>Music Club The Music Club will give all the musicians at Fieldstone to come together and work on musical pieces that they can then perform at assemblies or in the Winter and Spring Showcases. If you enjoy music and want to build your skill and craft, this club is for you!</p>	<p>Drama Club The Drama Club will develop confidence, team-building, and acting skills! The club will produce and present the Shakespeare play at the end of the year.</p>	<p>Intramural Sports II In Intramural Sports, athletes and sports enthusiasts will train, practice, and compete in a variety of indoor and outdoor sports, including track and field. They will also be required to maintain fitness levels and pass fitness tests. The club aims to foster a spirit of competitiveness and teamsmanship in a fair and supportive environment.</p>	<p>Yearbook Club The Yearbook Club will ensure that the year's events are memorialized in the Yearbook. Members will work together as a team to 'tell the story of the past year' through pictures and images.</p>
<p>Morning Announcements Club This club will develop students' public speaking skills; members will work together to plan and make morning announcements (special occasions, birthdays, reminders, and more).</p>	<p>Debate Club The club will build public speaking and reasoning skills; members will train to compete in friendly tournaments on a club level, and in competitions with other school teams.</p>	<p>Intramural Sports I In Intramural Sports, athletes and sports enthusiasts will train, practice, and compete in a variety of indoor and outdoor sports, including track and field. They will also be required to maintain fitness levels and pass fitness tests. The club aims to foster a spirit of competitiveness and teamsmanship in a fair and supportive environment.</p>	<p>Coding Club (NEW!) A new club that will help students develop and build programming skills. Computer Programming, Robotics, Game Design and STEM project building programs will help students compete in a technological world and allow them to develop critical thinking skills that will support them in daily life. (Fee to providers)</p>	<p>French Club The French Club will help nurture a love for all things French! With a focus on French culture, language, art and architecture, students will engage in a variety of activities and projects to nurture their appreciation of French.</p>
<p>Gabriel's Soccer Club Back by popular demand! Gabriel (Grade 7) shares his enthusiasm for soccer with his schoolmates. The club will help members from all grades with their soccer skills, and strengthen their love for The Beautiful Game.</p>	<p>Coding Club (NEW!) A new club that will help students develop and build programming skills. Computer Programming, Robotics, Game Design and STEM project building programs will help students compete in a technological world and allow them to develop critical thinking skills that will support them in daily life. (Fee to providers)</p>		<p>Tournament of Champions In Mr Murray's Tournament of Champions Club, students engage in a variety of mini competitions, games, trivia, and other activities. The student who has the most points at the end is crowned champion.</p>
